Testing Period	Start (26/09/2021)								
	Start (26/09/2021)								
Total Test Case (Plan)	positif: 70 Negative: 205								
Total Test Case (Actual)*	275								
Total Passed*	275								
Total Failed*	0								
Modul Name	Test Scenario Number	Test Case Number	Test Steps	Expected Results	Actual Results	Passed/Failed	Implementation Date	Tester Name	Notes
Positive Initialization	TSN-1	TSN-1.1	Open Rest API Postman Enter the URL of API to test Select the correct HTTP method for Initialization Request Provide correct required Body content Forwide correct required Body content Submit the details to start the test T. Validating he results	Open Rest API Postman Successfully Successfully submit the request Success message appears	Open Rest API Postman Successfully Successfully submit the request Success message appears	PASS	26/09/2021	Sofie	N/A
		TSN-1.2	Open Postman Rest AP! Enter the URL of the API to be tested Select the correct HTTP method for Initialization Request change the correct header set Correctly modify the required Body content Submit the details to start the test Validate the results	Open Rest API Postman Successfully Successfully submit the request Success message appears	Open Rest AP Postman Successfully Successfully submit the request Success message appears	PASS	26/09/2021	Sofie	N/A
Admin - Get Users	TSN-2	TSN-2.1	Donn Rest API Postman Zemer the URL of API to test Select the correct HTTP method for Get Users Provide correct header set Provide correct negarier Body content Submit the details to start the test Validating he results	Open Rest API Postman Successfully Successfully authmit the request Success message appears	Open Rest API Postman Successfully Successfully submit the request Success message appears	PASS	26/09/2021	Sofie	N/A
		TSN-2.2	Open Postman Rest API Enter the NEIL of the API to be tested Select the correct HTIP method for Get Users change the correct bedef set Correctly modify the required Body content Schomit the details to start the test // Validate the results	Open Rest API Postman Successfully Successfully submit the request Success message appears	Open Rest API Postman Successfully Successfully submit the request Success message appears	PASS	26/09/2021	Sofie	
Admin - User Login	TSN-3	TSN-3.1	Open Rest API Postman Enter the URL of API to test Select the correct HTTP method for User Login Provide correct required Body content Submit the details to start the test Velidating the results	Open Rest API Postman Successfully Successfully submit the request Success message appears	Open Rest API Postman Successfully Successfully submit the request Success message appears	PASS	26/09/2021	Sofie	N/A
		TSN-3.2	Open Postman Rest API Enter the URL of the API to be tested Select the correct HTTP method for User Login change the correct HTTP method for User Login change the correct header set Correctly modify the required Body content Submit the details to start the test T. Validate the results	Open Rest API Postman Successfully Successfully submit the request Success message appears	Open Rest API Postman Successfully Successfully submit the request Success message appears	PASS	26/09/2021	Sofie	
Admin - Get Organization Information	TSN-4	TSN-4.1	Open Rest API Postman Enter the URL of API to test Select the correct HTTP method for Get Organization Information Provide correct required Body content Submit the details to start the test T. Validating the results	Open Rest API Postman Successfully Successfully submit the request Success message appears	Open Rest API Postman Successfully Successfully submit the request Success message appears	PASS	26/09/2021	Sofie	N/A
		TSN-4.2	Open Postman Rest API Enter the URL of the API to be tested Select the correct HTTP method for Get Organization Information change the correct header set Correctly modify the required Body content Submit the details to start the test Vididate the results	Open Rest API Postman Successfully Successfully submit the request Success message appears	Open Rest API Postman Successfully Successfully submit the request Success message appears	PASS	26/09/2021	Sofie	N/A
Attendance - Punch In	TSN-5	TSN-5.1	Open Rest API Postman Einter the URL of API to test Select the correct HTTP method for Punch in Provide correct header set Provide correct required Body content Submit the details to start the test Validating the results	Open Rest API Postman Successfully Successfully submit the request Success message appears	Open Rest API Postman Successfully Successfully submit the request Success message appears	PASS	26/09/2021	Sofie	N/A
		TSN-5.2	Open Postman Rest API Enter the URL of the API to be tested Select the correct HTTP method for Punch in change the correct header set Correctly modify the required Body content Submit the details to start the test Validate the results	Open Rest API Postman Successfully Successfully submit the request Success message appears	Open Rest API Postman Successfully Successfully submit the request Success message appears	PASS	26/09/2021	Sofie	N/A

Attendance - Punch Out	TSN-6	TSN-6.1	1. Open Rest API Postman 2. Enter the VLRIC API to test 3. Select the correct HTTP method for Punch Out 4. Provide correct header set 5. Provide correct negatine 80 body content 6. Submit the details to start the test 7. Validating the results	Open Rest API Postman Successfully Successfully submit the request Successfully submit the request Success message appears	Open Rest API Postman Successfully Successfully submit the request Success message appears	PASS	26/09/2021	Sofie	N/A
		TSN-6.2	1. Open Postman Rest API 2. Enter the NLII of the API to be tested 3. Select the correct HTTP method for Punch Out 4. change the correct header set 5. Correctly modify the required Body content 6. Submit the decisal to start the test 7. Validate the results	Open Rest API Postman Successfully Successfully submit the request Successfully submit the request Successful submit the request	Open Rest API Postman Successfully Successfully submit the request Success message appears	PASS	26/09/2021	Sofie	N/A
Employee - Save Employee	TSN-7	TSN-7.1	Open Rest API Postman Enter the URL of API to test Select the correct HTTP method for Save Employee Provide correct required Body content Submit the details to start the test Validating the results	Open Rest API Postman Successfully Successfully submit the request Success message appears	Open Rest API Postman Successfully Successfully submit the request Success message appears	PASS	26/09/2021	Sofie	N/A
		TSN-7.2	Open Postman Rest API Zenter the VIRL of the API to be tested Select the correct HTTP method for Save Employee Achange the correct headr's set Correctly modify the required Body content Submit the decisal to start the test Validate the results	Open Rest API Postman Successfully Successfully submit the request Success message appears	Open Rest API Postman Successfully Successfully submit the request Successe message appears	PASS	26/09/2021	Sofie	N/A
Employee - Employee Detail	TSN-8	TSN-8.1	Open Rest API Postman Enter the Nation API to test Select the correct HTTP method for Employee Detail Provide correct header set Provide correct reader set Provide correct required Body content Submit the details to start the test T. Validating the results	Open Rest API Postman Successfully Successfully submit the request Successfully submit the request Success message appears	Open Rest API Postman Successfully Successfully submit the request Success message appears	PASS	26/09/2021	Sofie	N/A
		TSN-8.2	1. Open Postman Rest API 2. Enter the NEIL of the API to be tested 3. Select the correct HTTP method for Employee Detail 4. change the correct header set 5. Cornectly modify the required Body content 6. Submit the details to start the test 7. Validate the results	Open Rest API Postman Successfully Successfully submit the request Success message appears	Open Rest API Postman Successfully Successfully submit the request Success message appears	PASS	26/09/2021	Sofie	N/A
Employee - Save Employee Contact Detail	TSN-9	TSN-9.1	Open Rest API Postman Zenter the URL of API to test Select the correct HTTP method for Save Employee Contact Detail Provide correct neader set Provide correct required Body content Submit the details to start the test Validating her results	Open Rest API Postman Successfully Successfully submit the request Success message appears	Open Rest API Postman Successfully Successfully submit the request Success message appears	PASS	26/09/2021	Sofie	N/A
		TSN-9.2	Open Postman Rest AP! Enter the URL of the API to be tested: Select the correct HTTP method for Save Employee Contact Detail change the correct header set Correctly modify the required Body content Submit the details to start the test T. Validate the results	Open Rest API Postman Successfully Successfully submit the request Success message appears	Open Rest API Postman Successfully Successfully submit the request Success message appears	PASS	26/09/2021	Sofie	N/A
Employee - Employee Contact Detail	TSN-10	TSN-10.1	Open Rest API Postman Enter the URL of API to test Select the correct HTTP method for Employee Contact Detail Provide correct required Body content Submit the details to start the test T. Validating the results	Open Rest API Postman Successfully Successfully submit the request Success message appears	Open Rest API Postman Successfully Successfully submit the request Success message appears	PASS	26/09/2021	Sofie	N/A
		TSN-10.2	Open Postman Rest API Enter the URL of the API to be tested Select the correct HTTP method for Employee Contact Detail change the correct header set Correctly modify the required Body content Submit the details to start the test Validate the results	Open Rest API Postman Successfully Successfully submit the request Success message appears	Open Rest API Postman Successfully Successfully submit the request Success message appears	PASS	26/09/2021	Sofie	N/A
Employee - Update Employee Detail	TSN-11	TSN-11.1	Open Rest API Postman Enter the URL of API to test Select the correct HTTP method for Update Employee Detail Provide correct required Body content Submit the details to start the test T. Validating the results	Open Rest API Postman Successfully Successfully submit the request Success message appears	Open Rest API Postman Successfully Successfully submit the request Success message appears	PASS	26/09/2021	Sofie	
		TSN-11.2	Open Postman Rest API Enter the URL of the API to be tested Select the correct HTTP method for Update Employee Detail change the correct header set Correctly modify the required Body content Submit the details to start the test // Validate the results	Open Rest API Postman Successfully Successfully submit the request Success message appears	Open Rest API Postman Successfully Successfully submit the request Success message appears	PASS	26/09/2021	Sofie	N/A
Employee - Employee Search	TSN-12	TSN-12.1	1. Open Rest API Postman 2. Enter the NLIF of API to Iset 3. Select the correct HTTP method for Employee Search 4. Provide correct neader set 5. Provide correct neader set 5. Provide correct neader set 6. Submit the details to start the test 7. Validating the results	Open Rest API Postman Successfully Successfully submit the request Successfully submit the request Success message appears	Open Rest API Postman Successfully Successfully submit the request Success message appears	PASS	26/09/2021	Sofie	

		TSN-12.2	1. Open Postman Rest API 2. Enter the URI, of the API to be tested 3. Select the correct HTTP method for Employee Search 4. change the correct header sel 5. Correctly modify the required Body content 6. Submit the details to start the test 7. Validate the results	Open Rest API Postman Successfully Successfully submit the request Successfully submit the request Success message appears	Open Rest AP Postman Successfully Successfully swimit he request Success message appears	PASS	26/09/2021	Sofie	
Employee -Update Employee Contact Detail	TSN-13	TSN-13.1	1. Open Rest API Postman 2. Enter the VLIC API to test 3. Select the correct HTTP method for Update Employee Contact Detail 4. Provide correct header set 5. Provide correct required Body content 6. Submit the details to start the test 7. Validating the results	Open Rest API Postman Successfully Successfully submit the request Success message appears	Open Rest API Postman Successfully Successfully submit the request Success message appears	PASS	26/09/2021	Sofie	
		TSN-13.2	Open Postman Rest, API Enter the URL of the API to be tested Select the correct HTTP method for Update Employee Contact Select the correct HTTP method for Update Employee Contact 4. change the correct header set 5. Correctly modify the required Body content 6. Submit the details to start the test 7. Validate the results	Open Rest API Postman Successfully Successfully submit the request Success message appears	Open Rest API Postman Successfully Successfully submit the request Success message appears	PASS	26/09/2021	Sofie	
Employee -Update Employee Contact Detail	TSN-14	TSN-14.1	Open Rest API Postman Enter the URL of API to test Select the correct HTTP method for Update Employee Contact Detail A Provide correct header set Provide correct required Body content Submit the details to start the test Validating the results	Open Rest API Postman Successfully Successfully submit the request Success message appears	Open Rest API Postman Successfully Successfully submit the request Success message appears	PASS	26/09/2021	Sofie	
		TSN-14.2	Open Postman Rest API Enter the URL of the API to be tested Select the correct HTTP method for Update Employee Contact Detail A change the correct header set Correctly modify the required Body content Submit the details to start the test Validate the results	Open Rest API Postman Successfully Successfully submit the request Success message appears	Open Rest API Postman Successfully Successfully submit the request Success message appears	PASS	26/09/2021	Sofie	
Employee - Save Employee Custom Field	TSN-15	TSN-15.1	Open Rest API Postman Enter the URL of API to test Select the correct HTTP method for Save Employee Custom Field Detail A Provide correct header set Provide correct required Body content Submit the details to start the test Validating the results	Open Rest API Postman Successfully Successfully submit the request Success message appears	Open Rest API Postman Successfully Successfully submit the request Success message appears	PASS	26/09/2021	Sofie	
		TSN-15.2	1. Open Postman Rest API 2. Enter the URL of the API to be tested 3. Select the correct HTTP method for Save Employee Custom Field Detail 4. change the correct header set 5. Correctly modify the required Body content 6. Submit the details to start the test 7. Validate the results	Open Rest API Postman Successfully Successfully submit the request Success message appears	Open Rest AP Postman Successfully Successfully submit the request Success message appears	PASS	26/09/2021	Sofie	
Employee - Employee Custom Field	TSN-16	TSN-16.1	Open Rest API Postman Zenter the URL of API to lest Select the correct HTTP method for Employee Custom Field Provide correct required Body content Submit the details to start the test T. Validating the results	Open Rest API Postman Successfully Successfully submit the request Success message appears	Open Rest API Postman Successfully Successfully submit the request Success message appears	PASS	26/09/2021	Sofie	
		TSN-16.2	Open Postman Rest API Zenter the URL of the API to be tested Select the correct HTTP method for Employee Custom Field Select the correct header set Corpectly modify the required Body content Submit the details to start the test Validate the results	Open Rest API Postman Successfully Successfully submit the request Success message appears	Open Rest API Postman Successfully Successfully submit the request Success message appears	PASS	26/09/2021	Sofie	
Employee - Update Employee Custom Field	TSN-17	TSN-17.1	Open Rest API Postman Enter the URL of API to test Select the correct HTTP method for Update Employee Custom Field Provide correct required Body content Submit the details to start the test T. Validating the results	Open Rest API Postman Successfully Successfully submit the request Success message appears	Open Rest API Postman Successfully Successfully submit the request Success message appears	PASS	26/09/2021	Sofie	
		TSN-17.2	Open Postman Rest API Zenter the MIL of the API to be tested Select the cornect HTTP method for Update Employee Custom Field Select the cornect HTTP method for Update Employee Custom Field Cornectly modify the required Body content Submit the details to start the test // Validate the results	Open Rest API Postman Successfully Successfully submit the request Success message appears	Open Rest API Postman Successfully Successfully submit the request Success message appears	PASS	26/09/2021	Sofie	
Employee - Custom Field	TSN-19	TSN-19.1	Open Rest API Postman Einter the URL of API to best Select the correct HTTP method for Custom Field Select the correct HTTP method for Custom Field Select the correct HTTP method for Custom Field Select the Custom Field Provide correct required Body content Submit the details to start the test Validating the results	Open Rest API Postman Successfully Successfully submit the request Success message appears	Open Rest API Postman Successfully Successfully submit the request Success message appears	PASS	26/09/2021	Sofie	

		TSN-19.2	1. Open Postman Rest API 2. Enter the VIRL of the API to be tested 3. Select the correct HTTP method for Custom Field 4. change the correct header set 5. Correctly modify the required Body content 6. Submit the details to start the test 7. Validate the results	Open Rest API Postman Successfully Successfully submit the request Successfully submit the request Success message appears	Open Rest AP Postman Successfully Successfully swimit the request Success message appears	PASS	26/09/2021	Sofie	
Employee - Delete Employee Custom Field	TSN-20	TSN-20.1	Open Rest API Postman Enter the URL of API to test Select the correct HTTP method for Delete Employee Custom Field Provide correct required Body content Submit the details to start the test Validating the results	Open Rest API Postman Successfully Successfully submit the request Success message appears	Open Rest API Postman Successfully Successfully submit the request Success message appears	PASS	26/09/2021	Sofie	
		TSN-20.2	Open Postman Rest API Enter the MIL of the API to be lested Select the cornor HTTP method for Delete Employee Custom Field Select the cornor the TTP method for Delete Employee Custom Field Select the cornor the nader set Cornocity modify the required Body content Submit the details to start the test Validate the results	Open Rest API Postman Successfully Successfully submit the request Success message appears	Open Rest API Postman Successfully Successfully submit the request Success message appears	PASS	26/09/2021	Sofie	
Employee - Save Employee Education	TSN-21	TSN-21.1	Open Rest API Postman Enter the URL of API to test Select the correct HTTP method for Save Employee Education Provide correct required Body content Submit the details to start the test T. Validating the results	Open Rest API Postman Successfully Successfully submit the request Success message appears	Open Rest API Postman Successfully Successfully submit the request Success message appears	PASS	26/09/2021	Sofie	
		TSN-21.2	change the correct header set Correctly modify the required Body content Submit the details to start the test Validate the results	Open Rest API Postman Successfully Successfully submit the request Success message appears	Open Rest API Postman Successfully Successfully submit the request Success message appears	PASS	26/09/2021	Sofie	
Employee - Employee Education	TSN-22	TSN-22.1	Provide correct header set Provide correct required Body content Submit the details to start the test Validating the results	Open Rest API Postman Successfully Successfully submit the request Successfully submit the request Success message appears	Open Rest API Postman Successfully Successfully submit the request Success message appears	PASS	26/09/2021	Sofie	
		TSN-22.2	1. Open Postman Rest API 2. Enter the VRI, of the API to be tested 3. Select the correct HTTP method for Employee Education 4. change the correct header set 5. Correctly modify the required Body content 6. Submit the defaults to start the test 7. Validate the results	Open Rest API Postman Successfully Successfully submit the request Success message appears	Open Rest AP Postman Successfully Successfully short the request Success message appears	PASS	26/09/2021	Sofie	
Employee - Update Employee Education	TSN-23	TSN-23.1	Open Rest API Postman Enter the URL of API to test Select the correct HTTP method for Update Employee Education Provide correct neader set Provide correct neader set Provide correct neader dey content Submit the details to start the test Validating the results	Open Rest API Postman Successfully Successfully submit the request Success message appears	Open Rest API Postman Successfully Successfully submit the request Success message appears	PASS	26/09/2021	Sofie	N/A
		TSN-23.2	change the correct header set Correctly modify the required Body content Submit the details to start the test	Open Rest API Postman Successfully Successfully submit the request Success message appears	Open Rest API Postman Successfully Successfully submit the request Success message appears	PASS	26/09/2021	Sofie	N/A
Employee - Delete Employee Education	TSN-24	TSN-24.1	Open Rest API Postman Zenter the URL of API to test Select the correct HTTP method for Update Delete Employee Education A provide correct header set Provide correct required Body content Submit the details to start the test Validating the results	Open Rest API Postman Successfully Successfully submit the request Success message appears	Open Rest AP Postman Successfully Successfully submit the request Success message appears	PASS	26/09/2021	Sofie	N/A
		TSN-24.2	Open Postman Rest API Enter the URL of the API to be tested Select the correct HTTP method for Delete Employee Education change the correct header set Correctly modify the required Body content Submit the details to start the test Validate the results	Open Rest API Postman Successfully Successfully submit the request Success message appears	Open Rest API Postman Successfully Successfully submit the request Success message appears	PASS	26/09/2021	Sofie	N/A
Employee - Save Employee Work Experience	TSN-25	TSN-25.1	Open Rest API Postman Enter the URL of API to test Select the correct HTTP method for Save Employee Work Experience Education H. Provide correct header set Provide correct neader set Showing the defials to start the test Validating the results	Open Rest API Postman Successfully Successfully submit the request Success message appears	Open Rest API Postman Successfully Successfully submit the request Success releasing appears	PASS	26/09/2021	Sofie	

		TSN-25.2	1. Open Postman Rest API 2. Enter the VILC, of the API to be tested 3. Select the correct HTTP method for Save Employee Work Experience 4. change the correct header set 5. Correctly modify the required Body content 6. Submit the details to start the test 7. Validate the results	Open Rest API Postman Successfully Successfully submit the request Success message appears	Open Rest API Postman Successfully Successfully submit the request Success message appears	PASS	26/09/2021	Sofie	
Employee - Employee Work Experience	TSN-26	TSN-26.1	1. Open Rest API Postman 2. Enter the NLIC of API to lost 3. Select the correct HTTP method for Employee Work Experience Experience Education 4. Provide correct header set 5. Provide correct neader set 6. Submit the details to start the test 7. Validating the results	Open Rest API Postman Successfully Successfully submit the request Success message appears	Open Rest API Postman Successfully Successfully submit the request Success message appears	PASS	26/09/2021	Sofie	N/A
		TSN-26.2	1. Open Postman Rest API 2. Enter the ULC, of the API to be tested 3. Select the correct HTTP method for Employee Work Experience Experience 4. change the correct header set 5. Correctly modify the required Body content 6. Submit the details to start the test 7. Validate the results	Open Rest API Postman Successfully Successfully submit the request Success message appears	Open Rest AP Postman Successfully Successfully submit the request Success message appears	PASS	26/09/2021	Sofie	N/A
Employee - Update Employee Work Experience	TSN-27	TSN-27.1	1. Open Rest API Postman 2. Enter the VLIC API Pto test 3. Select the correct HTTP method for Update Employee Work Experience Experience Education 4. Provide correct nearled set est 5. Provide correct nequired Body content 6. Submit the details to start the test 7. Validating the results	Open Rest API Postman Successfully Successfully submit the request Success message appears	Open Rest API Postman Successfully Successfully submit the request Success message appears	PASS	26/09/2021	Sofie	N/A
		TSN-27.2	1. Open Postman Rest API 2. Enter the URL of the API to be tested 3. Select the correct HTTP method for Update Employee Work Experience Experience 4. change the correct header set 5. Correctly modify the required Body content 6. Submit the defails to start the test 7. Validate the results	Open Rest API Postman Successfully Successfully submit the request Success message appears	Open Reat API Postman Successfully Successfully submit the request Success message appears	PASS	26/09/2021	Sofie	N/A
Employee - Delete Employee Work Experience	TSN-28	TSN-28.1	1. Open Rest API Postman 2. Enter the URL of API to test 3. Salect the correct HTTP method for Delete Employee Work Experience Experience Experience Education 4. Provide correct header set 5. Provide correct neader set 6. Submit the details to start the test 7. Validating the results	Open Rest API Postman Successfully Successfully submit the request Success message appears	Open Rest API Postman Successfully Successfully submit the request Success message appears	PASS	26/09/2021	Sofie	N/A
		TSN-28.2	1. Open Postman Rest API 2. Enter the VLIC of the API to be tested 3. Select the correct HTTP method for Delete Employee Work Experience Experience Experience 4. change the correct header set 5. Correctly modify the required Body content 6. Submit the details to start the test 7. Validate the results	Open Rest API Postman Successfully Successfully submit the request Success message appears	Open Rest API Postman Successfully Successfully submit the request Success message appears	PASS	26/09/2021	Sofie	N/A
Employee - Save Supervisor Details	TSN-29	TSN-29.1	Open Rest API Postman Enter the URL of API to test Select the correct HTTP method for Save Supervisor Details Experience Experience Education 4- Provide correct header set 5- Provide correct negulared Body content Submit the details to start the test 7- Validating the results	Open Rest API Postman Successfully Successfully submit the request Success message appears	Open Rest API Postman Successfully Successfully submit the request Success message appears	PASS	26/09/2021	Sofie	N/A
		TSN-29.2	Open Postman Rest API Enter the URL of the API to be tested Select the correct HTTP method for Save Supervisor Details Experience Experience Experience Experience 4. change the correct header set S. Correctly modify the required Body content Submit the details to start the test Validate the results	Open Rest API Postman Successfully Successfully submit the request Success message appears	Open Rest API Postman Successfully Successfully submit the request Success message appears	PASS	26/09/2021	Sofie	N/A
Employee - Supervisor Details	TSN-30	TSN-30.1	Open Rest API Postman Enter the URL of API to test Select the correct HTTP method for Supervisor Details Experience Experience Experience Education Provide correct header set Provide correct neader set Select the Control of Supervisor Details Experience Select the Select Se	Open Rest API Postman Successfully Successfully submit the request Success message appears	Open Rest API Postman Successfully Successfully submit the request Success message appears	PASS	26/09/2021	Sofie	N/A
		TSN-30.2	1. Open Postman Rest API 2. Enter the NEL of the API to be tested 3. Select the correct HTTP method for Supervisor Details Experience Experience Experience 4. change the correct header set 5. Correctly modify the required Body content 6. Submit the details to start the test 7. Validate the results	Open Rest API Postman Successfully Successfully submit the request Successfully submit the request Successful submit the request	Open Rest API Postman Successfully Successfully submit the request Success message appears	PASS	26/09/2021	Sofie	N/A

Employee - Update Supervisor Details	TSN-31	TSN-31.1	1. Open Rest API Postman 2. Enter the URL of API to test 3. Select the correct HTTP method for Update Supervisor Details Experience Experience Education 4. Provide correct header set 5. Provide correct required Body content 6. Submit the details to start the test 7. Validating the results	Open Rest API Postman Successfully Successfully submit the request Success message appears	Open Rest AP Postman Successfully Successfully submit the request Success message appears	PASS	26/09/2021	Sofie	N/A
		TSN-31.2	Open Postman Rest API Center the URL of the API to be tested Select the correct HTTP method for Update Supervisor Details Experience Experience A change the correct header set Correctly modify the required Body content Submit the details to start the test T. Validate the results	Open Rest API Postman Successfully Successfully submit the request Success message appears	Open Rest API Postman Successfully Successfully submit the request Success message appears	PASS	26/09/2021	Sofie	N/A
Employee - Delete Supervisor Details	TSN-32	TSN-32.1	Provide correct required Body content Submit the details to start the test Validating the results	Open Rest API Postman Successfully Successfully submit the request Success message appears	Open Rest API Postman Successfully Successfully submit the request Success message appears	PASS	26/09/2021	Sofie	N/A
		TSN-32.2	1. Open Postman Reat API 2. Enter the VILL of the API to be tested 3. Select the correct HTTP method for Delete Supervisor Details Experience Experience 4. change the correct header set 5. Correctly modify the required Body content 6. Submit the details to start the test 7. Validate the results	Open Rest API Postman Successfully Successfully submit the request Success message appears	Open Rest AP Postman Successfully Successfully elumit the request Success message appears	PASS	26/09/2021	Sofie	N/A
Employee - Save Employee Dependent	TSN-33	TSN-33.1	Open Rest API Postman Center the URL of API to test Select the correct HTTP method for Save Employee Dependent Experience Experience Education Provide correct header set Provide correct neader set Select the Control of the Control Submit the details to start the test Validating the results	Open Rest API Postman Successfully Successfully submit the request Success message appears	Open Rest API Postman Successfully Successfully submit the request Success message appears	PASS	26/09/2021	Sofie	N/A
		TSN-33.2	Open Postman Rest API Enter the URL of the API to be tested Select the correct HTTP method for Save Employee Dependent Experience Experience A change the correct header set Correctly modify the required Body content Submit the details to start the test Validate the results	Open Rest API Postman Successfully Successfully submit the request Success message appears	Open Rest API Postman Successfully Successfully submit the request Success message appears	PASS	26/09/2021	Sofie	N/A
Employee - Employee Dependents	TSN-34	TSN-34.1	Open Rest API Postman Enter the URL of API to test S. Select the correct HTTP method for Employee Dependents Experience Experience Education 4. Provide correct header set 5. Provide correct neader set 5. Provide correct required Body content 6. Submit the details to start the test 7. Validating the results	Open Rest API Postman Successfully Successfully submit the request Success message appears	Open Rest API Postman Successfully Successfully submit the request Success message appears	PASS	26/09/2021	Sofie	N/A
		TSN-34.2	Open Postman Rest API Enter the URL of the API to be tested Select the correct HTTP method for Employee Dependents Experience Experience A change the correct header set Correctly modify the required Body content Submit the details to start the test T. Validate the results	Open Rest API Postman Successfully Successfully submit the request Success message appears	Open Rest API Postman Successfully Successfully submit the request Success message appears	PASS	26/09/2021	Sofie	N/A
Employee - Update Employee Dependents	TSN-35	TSN-35.1	Open Rest API Postman Enter the URL of API to test Select the correct HTTP method for Update Employee Dependents Experience Experience Education Provide correct header set Provide correct header set Select the Correct required Body content Submit the details to start the test Validating the results	Open Rest API Postman Successfully Successfully submit the request Success message appears	Open Rest API Postman Successfully Successfully submit the request Success message appears	PASS	26/09/2021	Sofie	N/A
